

JEINA-TRaCE Climate Tech Industry Secondments

Up to \$20,000 in funding for UNSW women

researchers from migrant & refugee

backgrounds to partner with Australia

Climate tech start-ups

What is this opportunity

A new initiative connecting women researchers from migrant and refugee backgrounds at UNSW with Australia's climate tech startup ecosystem through the TRaCE Industry Secondment program. Researchers will spend 3–6 months with start-ups, applying their expertise to real-world climate challenges while building industry networks and leadership skills.
