Partnership Program:
UNSW School of Computer Science and Engineering

Welcome to the UNSW School of Computer Science and Engineering (CSE) Partnership Program, the pinnacle of innovation and academic excellence. Proudly ranked as the No. 1 computer science and engineering institution in Australia and among the elite globally, CSE offers unparalleled opportunities for collaboration and impact. With decades of pioneering research and a vibrant ecosystem of innovation and education, our school stands as a beacon of excellence in computer science and engineering. We empower thousands of undergraduate and postgraduate students every year to become future leaders, equipped with the cutting-edge skills required in today's rapidly evolving tech landscape.

Industry Partnership Overview

The Industry Partnership Program (IPP) offers three tiers of engagement, each tailored to meet the unique needs and goals of our esteemed partners. By joining our program, companies gain exclusive access to a range of privileges and networking opportunities, with each tier providing increasingly valuable benefits.

Benefits of Partnering

Access to Top Talent: Direct access to our skilled students and graduates for recruitment, internships, and project collaborations.

Cutting-Edge Research and Innovation: Stay ahead with exclusive insights into the latest research and technological advancements through our seminars.

Enhanced Brand Visibility: Elevate your company's visibility and reputation through logo placements, sponsorship acknowledgments, and event participation.

Networking Opportunities: Connect with leading academics, researchers, and industry peers at exclusive events such as "Meet Elites" and our annual student prize ceremony.

Industry Influence: Shape the future of computer science and engineering education by sponsoring prizes, student competitions, and other initiatives.

Customised Engagement: Choose from our tiered partnership program to align with your objectives and budget, maximising your return on investment.
