Policy Statement				
Purpose	To outline the principles under which Australian Government Research Training Program scholarships (RTP) and UNSW Higher Degree Research (HDR) scholarships are awarded and administered.			
Scope	This policy applies to all HDR scholarships that provide a living allowance stipend, tuition fee support, and/or a top-up scholarship to HDR candidates enrolled at the University.			
Policy Provisions				

1. Principles

- a. HDR scholarships support suitably qualified candidates to undertake research training programs at UNSW.
- b. HDR scholarships are used to support the research excellence, research capacity and equity and diversity goals of the University.
- c. The purpose of a HDR scholarship is to provide financial support to the recipient so they can enrol at UNSW to carry out their research for their higher degree. Such support includes tuition fee support and/or a living allowance stipend.
- d. Scholarship providers must conduct a competitive process for selecting scholarship recipients that is equitable and fair. Applicants must meet the conditions and application requirements for HDR admission, which can be found in the [Admission to Higher Degree Research Programs Procedure](#).
- e. Funding for HDR scholarships can come from several sources including but not limited to:
 - the Commonwealth and other government sources
 - Australian Government Research Training Program (RTP) scholarships
 - UNSW (Divisions, Faculties, Institutes, Schools and Centres)
 - individual and corporate donors
 - international and regional organisations, and
 - other organisations.
- f. A scholarship is for educational purposes and does not make the recipient an employee of the scholarship provider or the University, nor does it require the recipient to render services to the scholarship provider or the University as a condition of receiving the scholarship.
- g. Scholarships must be appropriately funded for the standard duration of candidature.
- h. All scholarship providers at UNSW must comply with the terms and conditions outlined in the [Higher Degree Research Scholarships Procedure](#).
- i. The Graduate Research School is responsible for administering all HDR scholarships.
