

# Delirium and Risk of Vascular dementia after a Stroke (DRIVERS)

## Principal Investigator

**Dr Akin Ojagbemi**  
University of Ibadan College of Medicine  
Nigeria

## Summary

<b>Country</b>	Nigeria
<b>Principal Investigator</b>	Akin Ojagbemi
<b>Key publication/reference</b>	Ojagbemi, A., Bello, T., Owolabi, M., Baiyewu, O. Cognitive decline before and after a first-ever stroke in Africans. Acta Neurologica Scandinavica. 2021;144;266-274.
<b>Years in which study conducted</b>	2017-2020
<b>Sample</b>	
<b>Size</b>	150
<b>Population: Hospital/community/trial</b>	<b>Observational – hospital based</b>
<b>Age range</b>	18+
<b>Number of centres</b>	1
<b>Control group: number, population, selection</b>	None
<b>Assessment</b>	
<b>Follow up schedule</b>	Quarterly over 1 year
<b>Neuropsychological tests</b>	Detailed neuropsychological test battery
<b>Other assessments</b>	Medical history, Physical exam, Psychiatric and mental health exam (delirium), Functional tests
<b>MRI sequence/technique</b>	No

<b>Genetic data</b>	No
<b>Funders</b>	Medical Education Partnership Initiative-Junior Faculty Research Training Program under Fogarty International Grant (D43TW010140).
