

Bachelor of Medical Studies & Doctor of Medicine / Bachelor of Arts 3856

Important Program Information

Please speak to the Faculty of Arts, Design & Architecture (ADA) on the sequence of enrolments for your chosen area(s) to meet the 96 UOC required for the Arts component of this program.

Generally, students cannot be concurrently enrolled in both the Medicine and Arts components of this program and will focus on only one component at a time. The duration of the program is 7 or 8 years, depending on whether the Independent Learning Project (ILP) has been co-designed with ADA. Co-design allows 12 UOC from the ILP to be counted as 12 UOC of Prescribed Electives for the BA component. If students do not want to pursue this option but want to complete other Bachelor of Arts Prescribed Electives they can do so. This will mean that they will need to do additional units of credit to meet the requirements of the program

Please speak with the Medicine and Health team in The Nucleus Student Hub prior enrolling in this program. For additional information, you may also visit the following Medicine Program website-- [Medicine/Arts Program 3856](#).
