Course Details & Outcomes

Course Description

Consistent with PSYC7212, this course provides theoretical knowledge and practical skills in

child and adult clinical psychology for candidates undertaking postgraduate training in clinical psychology. The focus is on aetiology, assessment, diagnosis, case conceptualisation, and empirically-supported treatment of clinical disorders across the lifespan. These problems will be considered within the individual client's relevant sociocultural context, with consideration given to providing culturally-responsive approaches to clinical care and collaboration with other professionals if indicated. The course is guided by a scientist-practitioner approach and covers best practice guidelines, with particular emphasis on consideration of our professional obligation to conduct safe and ethical practice and to protect the public while delivering evidence-based clinical services. The teaching activities include lectures, interactive activities (e.g., group discussions, role-plays), and self-guided online modules. Individual lecturers may assign readings that should be completed prior to the lecture.

Course Aims

The course aims to provide candidates with advanced knowledge about major theoretical frameworks for various forms of psychopathology across the lifespan and practical skills for intervening with clinical populations. This course will introduce candidates to assessment, diagnosis, and intervention approaches for several psychological disorders of childhood and adulthood, as guided by a scientist-practitioner approach. Demonstrations of assessment and therapeutic procedures and an opportunity to practice these skills will be provided in the practical sessions, with a particular emphasis on providing candidates with opportunities to practice implementing safe practice guidelines with clinical populations.

Relationship to Other Courses

Pre-requisite(s): Honours Degree in Psychology; Currently enrolled in Master of Psychology (Clinical) program

Course Learning Outcome

Course Learning Outcomes
CLO1 : Apply advanced psychological knowledge, including theories of psychological disorders, models of health, and international taxonomies, to their practice in clinical psychology as it relates to common psychological disorders.
CLO2 : Apply advanced psychological knowledge to culturally-responsive assessment in clinical psychology, including use of assessment processes, development of case formulation and evaluation of client processes, as it relates to common psychological disorders.
CLO3 : Apply advanced psychological knowledge to culturally-responsive interventions in clinical psychology, including selection of interventions, appreciation of contextual issues and collaboration with other professionals, as it relates to common psychological disorders.

	Examination
CLO2 : Apply advanced psychological knowledge to culturally-responsive assessment in clinical psychology, including use of assessment processes, development of case formulation and evaluation of client processes, as it relates to common psychological disorders.	• Assessment Tool Presentation • Podcast • Written Final Examination
CLO3 : Apply advanced psychological knowledge to culturally-responsive interventions in clinical psychology, including selection of interventions, appreciation of contextual issues and collaboration with other professionals, as it relates to common psychological disorders.	• Podcast • Written Final Examination

Learning and Teaching Technologies

Moodle - Learning Management System

Learning and Teaching in this course

It is expected that students are aware of UNSW Assessment policy and understand how to apply for special consideration if they are unable to complete an assignment/exam due to illness and/or misadventure.

It is expected that students have read through the School of Psychology Student Guide, Program Guide and statement on Inherent Requirements of the Master of Psychology programs on the [Program website](#).

All news updates and announcements will be made on the 'Announcements' forum on the Moodle page and/or by email. It is the student's responsibility to check Moodle and their student emails regularly to keep up to date.

This class utilises a format that is both didactic and interactive. Students are expected to arrive on time for class and participate in course activities. Students are required to notify the instructor by email in advance of any anticipated absences. It is the student's responsibility to obtain notes, handouts, and the video (if applicable) that was viewed during the missed class. The value of graduate education is largely the experience. Class participation is important to achieving CLOs and includes voicing opinions, facilitating and contributing to discussions, and speaking knowledgeably regarding the assigned readings and online materials.

Students registered with Equitable Learning Services must contact the Course Convenor immediately if they intend to request any special arrangements for later in the course, or if any special arrangements need to be made regarding access to the course material. An Equitable Learning Plan must be emailed to the course coordinator as soon as they are made available.

Assessment Details

Assessment Tool Presentation

You will be required to complete a 10-minute presentation on a single assessment tool/measure for assessing a specific childhood emotional or behavioural problem, such as: Child Behavior Checklist (CBCL), Conners, Multidimensional Anxiety Scale for Children (MASC), Children's Depression Inventory (CDI), Spence Children's Anxiety Scale, Inventory of Callous-Unemotional Traits (ICU), and Eyberg Child Behavior Inventory (ECBI) / Sutter-Eyberg Student Behavior Inventory (SESBI-R). You are expected to complete this task using materials from the UNSW Psychology Test Library and peer-reviewed literature. You must first gain approval on your selected tool/measure from the Course Convenor via email correspondence.

You will be provided with guidelines for the assessment in Week 1. You will give your presentation in Week 4. Your presentation must be no longer than 10 minutes in length and should be accompanied by slides. Following your presentation, you will be required to facilitate a 5-minute practical exercise involving administration and scoring practice. You will be required to contribute to a measures database in an online spreadsheet that details key features of the assessment tool (e.g., construct designed to be measured, age range, reporter, number of items, time to complete, psychometric properties, etc.). You will be assessed on your ability to apply advanced psychological knowledge to common psychological disorders and culturally-responsive assessment in clinical psychology. This assessment will be marked as satisfactory/unsatisfactory. Written feedback will be provided within 10 working days.

All assessments use competency-based standards. You must receive satisfactory on all assessment items to pass the course.

Note: Please organise to get access to the Psychology Clinic Test Library at the beginning of Term to ensure you can access any test materials required to complete this assessment.

Podcast

You will work in pairs to create an educational and entertaining podcast episode on a specific psychological disorder or symptom presentation that occurs at any time across the lifespan. Your podcast episode should be targeted at a lay public audience. You are expected to complete this task using peer-reviewed literature. You must first gain approval on your selected topic from the Course Convenor via email correspondence. You are encouraged to be as creative as possible and to be inspired by existing popular podcasts.

You will be provided with guidelines for the assignment in Week 1. You will submit your podcast in Week 8. Your podcast episode should be no longer than 10 minutes and should be in MP3 format. You will be required to submit a written transcript of your podcast episode. You should email your recording to the Course Convenor via your preferred file transfer procedure, labelled in the following format: PSYC7204_SURNAME 1, SURNAME 2_zID 1, zID 2. You should submit the podcast transcript via Turnitin. Your Turnitin submission will act as your submission receipt. You will be assessed on your ability to apply advanced psychological knowledge to common psychological disorders and culturally-responsive assessment and treatment in clinical psychology. This assessment will be marked as satisfactory/unsatisfactory. Written feedback will be provided within 10 working days.

All assessments use competency-based standards. You must receive satisfactory on all assessment items to pass the course.

Assignment submission Turnitin type

This assignment is submitted through Turnitin and students do not see Turnitin similarity reports.

Written Final Examination

The final examination is designed to assess your learning on all topics across the term, including material from lectures and readings. The exam is typically 2 hours plus 10 minutes reading time and consists of several Short Answer responses and 1 Long Answer response. Details will be confirmed during the course. The examination will occur during the official University examination period (time TBA). You will be assessed on your ability to apply advanced psychological knowledge to common psychological disorders and culturally-responsive assessment and treatment in clinical psychology. This assessment will be marked as satisfactory/unsatisfactory. Your grade will be released during the University release of examination results period.

All assessments use competency-based standards. You must receive satisfactory on all assessment items to pass the course.

Course Schedule

Teaching Week/Module	Activity Type	Content
Week 1 : 29 May - 2 June	Lecture	
Week 2 : 5 June - 9 June	Lecture	
Week 3 : 12 June - 16 June	Online Activity	
Week 4 : 19 June - 23 June	Lecture	
	Presentation	Assessment 1: Assessment tool presentation
Week 5 : 26 June - 30 June	Lecture	
Week 6 : 3 July - 7 July	Lecture	
Week 7 : 10 July - 14 July	Lecture	
Week 8 : 17 July - 21 July	Lecture	
	Assessment	Assessment 2: Podcast
Week 9 : 24 July - 28 July	Lecture	
Week 10 : 31 July - 4 August	Lecture	

Attendance Requirements

To achieve the learning outcomes outlined above, you will need to attend all lectures. Attendance is compulsory.

General Schedule Information

Each week this course typically consists of 3-6 hours of lecture material. Students are expected to take an additional 3-4 hours each week of self-determined study to complete assessments and readings.

Given the professional training nature of the course, teaching activities can occur outside of the

standard term dates and times. Please carefully check the specific dates and times of activities in the Course Schedule.

Course Resources

Prescribed Resources

There is no set textbook for this course. Reading lists and text will be provided on Moodle by individual lecturers in advance of each lecture.

Recommended Resources

Not applicable

Additional Costs

Not applicable

Course Evaluation and Development

Student feedback on the course will be gathered via the MyExperience survey. Feedback will be used to refine course components to improve the student learning experience.

Other Useful Information

Academic Information

Upon your enrolment at UNSW, you share responsibility with us for maintaining a safe, harmonious and tolerant University environment.

You are required to:

- Comply with the University's conditions of enrolment.
- Act responsibly, ethically, safely and with integrity.
- Observe standards of equity and respect in dealing with every member of the UNSW community.
- Engage in lawful behaviour.
- Use and care for University resources in a responsible and appropriate manner.
- Maintain the University's reputation and good standing.

For more information, visit the [UNSW Student Code of Conduct Website](#).

Academic Honesty and Plagiarism

Referencing is a way of acknowledging the sources of information that you use to research your assignments. You need to provide a reference whenever you draw on someone else's words, ideas or research. Not referencing other people's work can constitute plagiarism. Further information about referencing styles can be located at <https://student.unsw.edu.au/referencing>

Academic integrity is fundamental to success at university. Academic integrity can be defined as a commitment to six fundamental values in academic pursuits: honesty, trust, fairness, respect, responsibility and courage. At UNSW, this means that your work must be your own, and others' ideas should be appropriately acknowledged. If you don't follow these rules, plagiarism may be detected in your work.

Further information about academic integrity and **plagiarism** can be located at:

- The Current Students site <https://student.unsw.edu.au/plagiarism>, and
- The ELISE training site <http://subjectguides.library.unsw.edu.au/elise/presentation>

The Student Conduct and Integrity Unit provides further resources to assist you to understand your conduct obligations as a student: <https://student.unsw.edu.au/conduct>

Submission of Assessment Tasks

Penalty for Late Submissions

UNSW has a standard late submission penalty of:

- 5% per day,
- for all assessments where a penalty applies,
- capped at five days (120 hours) from the assessment deadline, after which a student cannot submit an assessment, and
- no permitted variation.

Any variations to the above will be explicitly stated in the Course Outline for a given course or assessment task.

Students are expected to manage their time to meet deadlines and to request extensions as early as possible before the deadline.

Special Consideration

If circumstances prevent you from attending/completing an assessment task, you must officially apply for special consideration, usually within 3 days of the sitting date/due date. You can apply by logging onto myUNSW and following the link in the My Student Profile Tab. Medical documentation or other documentation explaining your absence must be submitted with your application. Once your application has been assessed, you will be contacted via your student email address to be advised of the official outcome and any actions that need to be taken from there. For more information about special consideration, please visit: <https://student.unsw.edu.au/special-consideration>

Important note: UNSW has a "fit to sit/submit" rule, which means that if you sit an exam or submit a piece of assessment, you are declaring yourself fit to do so and cannot later apply for Special Consideration. This is to ensure that if you feel unwell or are faced with significant

circumstances beyond your control that affect your ability to study, you do not sit an examination or submit an assessment that does not reflect your best performance. Instead, you should apply for Special Consideration as soon as you realise you are not well enough or are otherwise unable to sit or submit an assessment.
